

Ceramic Coating Limited Warranty

GrandPride Luxury Travel Sdn Bhd (1297143-K)

WARRANTY INFORMATION

This Certificate of Warranty is the only valid proof of a GrandLab ceramic coating application. It records the vehicle, the coating package applied, the installation date and the warranty period. Please verify that all details shown on your certificate are correct within seven (7) days of collection.

CONSUMER RIGHTS REMINDER

Please ensure that your ceramic coating is applied by GrandLab or an outlet officially authorised by GrandPride Luxury Travel Sdn Bhd. Confirm that your vehicle registration number, coating package and installation date are correctly recorded on this certificate at the time of collection.

OFFICIAL STATEMENT

Any coating application not carried out by GrandLab or an officially authorised outlet, or for which no valid warranty certificate exists, is not eligible for warranty support, claims, or any other obligation on the part of GrandLab or GrandPride Luxury Travel Sdn Bhd.

WARRANTY COVERAGE

Subject to the terms of this document, GrandLab warrants the applied ceramic coating against the following defects for the warranty period corresponding to the package installed:

1. Loss of coating performance arising from genuine product failure.
2. Uneven coating layer, streaking, or high spots attributable to workmanship.
3. Premature degradation of the coating layer where the required maintenance schedule has been observed.
4. Loss of hydrophobic (water-beading) performance under normal use and correct maintenance.

The warranty period commences on the installation date shown on this certificate and applies only to the panels and surfaces treated at the time of installation.

Product	Warranty Period	Maintenance
Gyeon Q2 Cancoat	2 Years	Every 2 months
Gyeon Q2 Cancoat Pro	3 Years	Every 3 months
Gyeon Q2 MOHS	4 Years	Every 4 months
Gyeon Q2 Matte	5 Years	Every 6 months
Gyeon Q2 Infinite	5 Years	Every 6 months
Koch Chemie C0.02 Ceramic	4 Years	Every 4 months

MAINTENANCE REQUIREMENT

Scheduled maintenance is a condition of this warranty. The owner must return the vehicle to GrandLab or an authorised outlet for maintenance at the interval specified for the coating package installed.

A grace period of sixty (60) days before or after each scheduled maintenance date is permitted. Failure to complete a scheduled maintenance within this grace period will void the remaining coverage under this warranty.

The owner is responsible for any fees or charges incurred for scheduled maintenance, including but not limited to exterior wash, decontamination and inspection. Proof of all completed maintenance must be retained and presented in the event of

a warranty claim.

CURING PERIOD AND FIRST WASH

1. Do not wash the vehicle for seven (7) days after installation, to allow the coating to cure fully.
2. Avoid exposure to heavy rain, sprinklers, or irrigation water for the first forty-eight (48) hours where possible.
3. Do not apply wax, sealant, or any other topping product over the coating during the curing period.
4. Remove bird droppings, tree sap, or industrial fallout immediately with clean water and a soft microfibre towel.

EXCLUSIONS

This warranty does not cover:

1. Losses resulting from failure to complete scheduled maintenance within the permitted grace period.
2. Damage caused by washing with strong acid, alkaline, or otherwise harsh chemicals.
3. Polishing, paint correction, or coating removal performed by any party other than GrandLab or an authorised outlet.
4. Damage to the coated surface arising from accident, impact, scratching, stone chips, or repainting.
5. Etching or staining caused by contamination left on the surface for a prolonged period, including bird droppings, tree sap, cement, or chemical fallout.
6. Defects in the vehicle's existing paintwork, including any defect disclosed to the owner prior to installation.
7. Losses resulting from natural disaster, fire, vandalism, or other causes unrelated to the coating product or its application.

CORRECT CARE OF YOUR COATING

1. Wash regularly using a pH-neutral automotive shampoo and the two-bucket method.
2. Avoid automatic brush car washes, which can inflict fine scratches on the coating.
3. Dry with a clean microfibre towel to prevent water spotting; do not allow the vehicle to air-dry in direct sun.
4. Avoid parking for prolonged periods beneath trees where sap and droppings are likely.
5. Follow the maintenance interval for your coating package strictly.

MAKING A CLAIM

To make a claim under this warranty, return the vehicle to your installer outlet together with this Certificate of Warranty, the original invoice, and records of all completed scheduled maintenance.

GrandLab will inspect the vehicle to determine whether the reported defect falls within the scope of this warranty. Where a claim is accepted, GrandLab's liability is limited, at its discretion, to rectification or re-application of the affected coating. This warranty does not cover consequential loss, loss of use, or the value of the vehicle.
